## Additional Comments

Good afternoon, Carrollwood Village Phase 2! Today, I began the initial Lilly pad treatment plan for site 4. I finished off the canal area on site 7. I also touched up all shorelines, and site 5 had some minor algae, hydrilla, and some trash in the cove. Please allow up to seven days for visible results from today's treatments and I'll be back as usual with my boat for site 2 and 1, possibly 4 depending on the suppression rate of the lily pads. Thank you for your business with cross Creek environmental, and have a great day!
