COMMENTS

During today's visit I was able to beat the rain and treat all the exposed dry areas around the perimeters of each site. Sites 3 and 4 had a rebloom of the lily pads so I applied the aquatic herbicide that worked last time to keep it away before getting crazy again. I'm planning on boating

several sites like 1,2, and 7 now that the water level is a little higher, some areas of 2 are still pretty low.
